## We Repeat Again: You Buy to Advantage When You Buy Wash Goods at This Store

And we might add—buy NOW. The shortage of dyes—and you see news about this every day in the papers—has been one of the main factors in causing the advance in price of all colored cotton goods. Candidly, we do not believe lower prices will prevail until after the war has ended, if then, so when our present stocks are exhausted we will be compelled to pay more and prices will naturally be higher. In the face of these conditions, we believe we are giving sound advice when we advise early purchasing. The shrewd buyer will weigh the statement we're making with care and will buy for later use before being compelled to pay more later. This list of prices of the various qualities gives you but the slightest hint of the character of the values:

Dress Gingham, 12 1/2 c to 25 c yard.  
Percales, a beautiful quality at 12 1/2 c yard  
Juvenile Suiting, Sun and Tub Proof, 18 c yard  
Tiger Cloth for children's suitings, 12 1/2 c yard  
New Cloth in light summery stripes, 25 c yard  
Voiles, various designs, at 15 c to 50 c yard  
Printed Batiste, a leader at 15 c a yard  
Scotch Tissue in Plaids and Stripes at 25 c yd.

### Colored Dress Linens at 50c

These are 36 inches wide, of good, closely woven quality, and the correct weight to make wash skirts, wash dresses, and also wash suits, and there are so many colors that selection is made very simple.

given last evening by the Montpelier Military band, the concert being rendered on Main street opposite Bethany church, the change in location being necessary because of the conditions surrounding the stand on State street. It was feared that small children might be injured by falling into some of the deep holes which are being made by those excavating for the foundation of the new building. The band stand will probably be transferred to some other place before many other concerts occur.

Terrill, elocution and physical culture teacher in the high school for a number of years and before that instructor in some of the lower grades, has resigned her position and the resignation has been accepted by the board. Plans for the Playhouse, Montpelier's new theatre to be erected on State street, are expected to be ready in a few days so that bids may be advertised for the construction work. The purchase of the Farwell property by the Playhouse corporation necessitated several changes in the plans, changes which will make the theatre larger and more attractive. It is now expected that the building will be completed the middle of September.

The Montpelier seminary baseball team went this forenoon to Randolph, where this afternoon they will play two games, one with the high school team and the other with the Vermont Agricultural school. Holway will pitch one contest and Granai the other. The absence of the seminary team leaves this city without a ball game this afternoon.

Mr. and Mrs. Charles C. Paige of 156 Barre street were surprised last evening at their home by a large number of their friends, the occasion being their silver wedding anniversary. The evening was pleasantly passed with cards and music and Mr. and Mrs. Paige were the recipients of an appropriate gift, presented during the evening.

Mrs. Bertha Carroll and child left yesterday for Pittsburg, N. Y., where she plans to make an indefinite visit with relatives.

The Pierce contested divorce suit was completed late yesterday afternoon in county court after a two days' trial, during which a large number of witnesses were introduced by petitioner and defendant. Judge Butler reserved decision. Court adjourned this forenoon until Tuesday morning at 9 o'clock, when the case of State vs. Charles Wyome of Moretown, charged with arson, will be taken up for jury trial.

Francis Shaw, a student at the University of Vermont, arrived in the city this forenoon to pass the week end with his mother, Mrs. William Shaw.

One of the beauty spots of the city at the present time is Elmwood park, where dozens of tulips and other flowering bulbs are showing a profusion of blossoms, their bright colors, against the green setting of the grass, attracting many visitors. The bulbs, a premium which came with seeds ordered by the children of the grades in school, were turned over by them to the civic department of the Woman's club and they will gladden the eye for many weeks. Another display of flowers which is of wonderful beauty may be seen at the home of Harry Goodrich, 2 Eastern avenue, where the mass of color is very effective.
